

800X1600mm
BIG & BOLD

1200X1200mm
DURABLE & ADORABLE

QUALITY

For us, quality is the top-most priority; hence our tiles are tested for their flatness. After which optical sensors take over for measuring points on the surface to create a matrix. Parameters are compared and the tile is classified. Lastly, Dico Liner optical sensors analyze the surfaces to say goodbye to any cushion or trapezium effects.

Flexible body tiles are made of soft clay material that gives it a natural texture and color. The range of flexible body tiles includes travertine, slate, granite, marble, sandstone, rising rock, mushroom stone, tianshan rock, culture stone, etc. ensures that its tiles are produced using the best raw materials, which adds to the tile's appearance and life. These modern tiles are lightweight and soft, when compared to conventional tiles. And as the name suggests they are flexible, which makes them anti-bending and crack free. Motto's flexible body tiles are ideal for both interior and exterior applications.

Tiles Shown: Armani Bronze
800x1600mm | High Gloss | Random | 9mm

Hybrid Glaze With Colour Body

The continuous colored stains are distributed creatively on the surface to derive a distinctive look. The color of the glaze and that of the body is synchronized precisely to reduce the visibility of the impact chips, if any may occur. This process ensures color permanence and durability of the surface design.
