

WHY

CPVC-PRO

- It has a maximum service temperature up to 93°C
- It has highest impact resistance without any loss in pressure bearing capacity / tensile strength or vicat softening temperature
- This ensures trouble-free service for long

FEATURES AND BENEFITS

Hot and Cold water compatible:

Piping System is compatible with both hot and cold water. It withstands very high temperature compared to any other thermoplastic plumbing systems. Many solar and electric water heaters have CPVC piping system for heat efficiency and lower installation cost.

- Corrosion resistance
- Lower bacterial growth
- Tough, rigid material
- No Scale, pit or leach formation
- Unaffected by chlorine in the water
- Chemical resistance
- Low thermal expansion
- Easy, cold welding process
- Superior fusion insulation
- Fire safety
- Cost effective
