*Healthy Bites!*

When you open a pack of KBZ product,  
You know that you will get Fresh,  
Natural & Healthy bite.  
Our mission is : Healthy & Pure  
food for everyone...

## OUR STORY

Our beginning was as humble as it could be. We started with pure and natural nuts and now we have expanded our line of products. We have now launched range of Namkeens.

Our driving philosophy is Healthy, Natural, Pure and Real food.

Our Pure and natural products are loved by everyone. They are perfectly flavored and crave able bites that has become a part of snacking life of many.

Our special packaging makes the KBZ even more special. We use Oxygen absorber in our packing. Oxygen supports the growth of micro organisms and causes changes in color and rancid odors in packaged foods. Oxygen absorbers absorb oxygen and effectively reduces the aerobic environment to 0% oxygen. Therefore aerobic bacteria and fungi are unable to grow in this environment. This will extend the shelf life of a food product drastically.

Raw material selection to packaging, every thing is done under supervision and as per Govt. Norms of FSSAI and ISO 22000 standards. So be rest assure of quality.

We wish you a Happy Healthy Bites !

# HEALTHY BITES

prepared under  
strict quality environment - specially for you

# Healthy bites

We are happy to keep it real.

Keeping food healthy yet tasty is an art !  
Seriously !

Even the nuts like almonds, Pistachio and Cashew are not pure.

Processing & refining makes it unhealthy.

We at KBZ understand the importance of Purity of the food.

That is why our packed nuts are pure, rich in taste and fresh.

You have to try it to check the difference.
