The use of the UKAS Accreditation Mark indicates accreditation in respect of those activities covered by the accreditation certificate number 015 held by NQA.
NQA is a trading division of Assentive Group Ltd, Registration No. 02513162. Registered Office: Warwick House, Houghton Hall Park, Houghton Regis, Dunstable, Bedfordshire, LU5 5ZX.
This certificate is the property of NQA and must be returned on request.

It all began with taking our traditional family business ahead to newer heights in retail & wholesale.

The Chheda's, Savla's and the Udani's met on Ganesh Chaturthi to auspiciously commence this business idea that everyone had in mind.

Moments® ...to cherish! was indeed the moment that we all four cherished and are now sharing it with the world through our basket of products. Started in 2010, our Company breathes, eats and lives in pure business strategies and delivers quality at its best through the wide range.

Being the entrant in the category of instant mixes and food additives manufacturing, we never had the fear of excelling to newer heights against the giant competitors. Things are analysed, designed, priced and marketed by experts with the state of the art technology. We keep in mind the ultimate goal that the end user should cherish after using the product thus resulting in the echo of our Brand.

Looking forward for that day where everyone cherishes the brand like our friendship and is the top of the town recall. Strengthened with excellent network communications and seasoned with many past case studies & distributorship, the team is ready for any competition and is sure about cherishing them too with a clean intension of seeing a better tomorrow for us all.

- Warm regards,

Team Moments Industries

ICING SUGAR

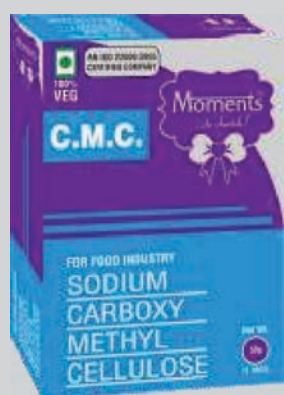

AVAILABLE RANGE

Sodium Benzoate - It is most widely used in acidic foods such as salad dressings (Vinegar), carbonated drinks (carbonic acid), jams & fruit juices (citric acid), pickles (vinegar) & condiments. Sodium Benzoate is a preservative.

PMS - Potassium Metabi Sulphite is a food preservative, which preserves the natural color of food and protects food against bacteria.

CMC is used in food science as a viscosity modifier or thickener & to stabilize emulsions in various products including ice-cream.

75 Packets per Box

Box Size: 18½" x 10½" x 7"

AVAILABLE WEIGHT - 50GMS

AVAILABLE RANGE

Veg. Carrageenan is used in a wide variety of applications in the food industry as a thickening, gelling, stabilizing and suspending agent.

GMS - is largely used in baking preparations to add "body" to the food. It is responsible for giving ice cream & whipped cream its smooth texture. It is sometimes used as an anti-staling agent in bread. GMS is an organic molecule used as an emulsifier.
